

B+Tree Page Directory Structure

Infimum always owns only itself, so will always have a slot in the page directory with N_Owned = 1.

Supremum always owns the last few records in the page, and is allowed to own less than 4 records (if the page has fewer).

All directory slots will own a minimum of 4 and maximum of 8 records, except supremum, which may own fewer.

The page directory grows "downwards" from offset 16376, the beginning of the FIL trailer; the first directory entry starts at 16374.
